

Hand-Pick Your Phone Services.

Qwest Integrated Office combines Qwest® OneFlex® Integrated Access with Nortel® Enterprise Communications Systems, providing you with single-source, state-of-the-art communications systems and technology.

With customizable lines and speeds, Qwest OneFlex Integrated Access brings scalability and flexibility to your phone system. Our dynamically allocated T-1 connection, low rates and industry-leading quality of service make OneFlex Integrated Access the smart choice for your business.

Nortel Enterprise Communications Systems establish integration and bring sophisticated support features to improve your communications. Choose from two solutions depending on your business needs.

Act today and see how much you'll save:

- ▶ 10% off Qwest Integrated Access monthly charge
- ▶ 2000 FREE long-distance minutes*
- ▶ Up to eight FREE seats of unified messaging**
- ▶ 30 months of 0% lease financing from GE Capital

*2000 free long-distance minutes per month only apply to business wireline calls.

**Number of free unified messaging seats are subject to qualified system type.

Start with a dependable, dedicated connection for voice and data.

QWEST® ONEFLEX® INTEGRATED ACCESS

Simply the right technology at the right price.

Qwest OneFlex Integrated Access has everything you need in a communications solution:

It's more scalable, providing seamless integration with your existing communications equipment, so it's easy to upgrade without an expensive overhaul.

It's more reliable, offering business-grade Internet with consistent speeds and industry-leading quality of service backed by service-level agreements and 24x7 technical support.

It's more flexible, so you pay only for the bandwidth, lines and features you need; customize from 6-13 lines, 768-1.544 Internet speeds, calling features and varied term-commitments; VoIP technology dynamically adjusts to meet your voice and data needs.

It's proven, you'll experience broadband, voice and data over a real-time, dynamically allocated T-1 connection; Qwest employs a Tier-1, Carrier-Class, OC-192 MPLS Network.

It's affordable and predictable, with one monthly rate for local calling and Internet service plus just 3¢ per minute state-to-state long distance; unlimited local and on-net long-distance calling between Qwest Integrated Access locations is free.

Add one of the following Nortel® Enterprise Communications Solutions:

NORTEL NORSTAR

Basic voice communications solutions that offer a range of easy-to-use sophisticated features

You get flexible, reliable and scalable solutions that grow with your business' needs.

Nortel Norstar solutions provide:

- High-speed bandwidth to the desktop without changing existing wiring
- A modular, scalable design that assures performance today and tomorrow
- Digital technology that creates a platform for current and future PC-based applications

NORTEL BUSINESS COMMUNICATIONS MANAGER

All-in-one integrated phone system with advanced VoIP capabilities

For businesses that require more advanced phone system capabilities, the Nortel Business Communications Manager (BCM) does it all. This compact, all-in-one platform delivers complete, integrated telephony and data services, which include browser-based management for streamlined set up and hassle-free operation.

BCM advanced capabilities include:

- Virtual private networks for enhanced security
- Centralized configuration and management
- Call center applications
- Interactive voice response
- Digital and IP messaging from a single device
- Unified messaging which increases productivity and consolidates all incoming messages onto the user's PC screen
- A hybrid environment that leverages existing investment
- A simplified network infrastructure
